

Getting Started at Rogue Fitness with the MindBody App

What is the MINDBODY app?

The MINDBODY app is a free mobile app that links you to a worldwide network of MINDBODY businesses. You can browse classes, book appointments, and buy passes from opted-in businesses in your area. If you've added a credit card to your account, or received a gift card from the business, you can even pay before you arrive.

What if I've already created an account online?

You'll still need to sign up for an account through the MINDBODY app. Your mobile account is separate from the profile used at your local business.

When you register with MINDBODY, the app searches for existing MINDBODY profiles and syncs them to your mobile device. The syncing process works by matching two pieces of information across accounts: your email address and your first and last name. Once synced, you can access all of your previously purchased passes directly from the app.

Creating an Account

You'll need to register a new account when using the MINDBODY app for the first time. This is necessary even if you've already created an account with a local MINDBODY business our MINDBODY app profile is only used on your mobile device.

When signing up, make sure to use the same first and last name that you use at MINDBODY businesses. In order to automatically sync your accounts, you'll want to use the same email address as well. If you choose to use a different email address, then you'll need to manually sync your accounts.

1. Launch the MINDBODY app and select **Continue with email**.
2. Enter your email address, then tap **Next**. (Existing users will be asked to log in.)
3. Enter a password, then tap **Next**.
4. Enter your first name, last name, location, and email preference, then tap **Create Account**.

Now, simply log in to your email account to confirm your address and sync your MINDBODY accounts with the app.
